RECEIVED BY

MM 92-156

Enclosed find the original and three copies of a petition
for rule-making for station KXXK-Knob Noster, MO.

Should further information be required please contact the
undersigned.

Sincerely

James E. Janes
President, Bick Broadcasting Co.
Licensee KXXK-Knob Noster

Before the
FEDERAL COMMUNICATIONS COMMISSION
Washington, D. C. 20554

In the Matter of)
)
Amendment of Section 73.202(b),)
Table of Allotments,) Rm 8021
FM Broadcast Stations.)
Knob Noster, Missouri)

To: Chief, Allocations Branch

PETITION FOR RULE MAKING

Bick Broadcasting Company, licensee of FM broadcast station KXXK(FM), licensed to the city of Knob Noster, Missouri seeks the substitution of channel 289C2 for channel 289C3 and modification of the license of KXXK to specify operation on the up-graded channel. In support of this proposal, Bick Broadcasting Company (Petitioner) states as follows:

This proposal will improve station KXXK to its highest possible level, bringing additional service to Knob Noster, Warrensburg and the Johnson County Missouri area and, therefore, is in the public interest. Should this proposal be adopted by the Commission, Petitioner will promptly file form 301, and provide any other information needed to obtain a construction permit and, upon receiving said construction permit, will promptly construct said improved facility.

Channel 289C2 can be substituted for channel 289C3 at the present transmitter site of station KXXKX as a "drop in" allocation.

As part of this petition, attached are two channel searches in support of same secured by the Petitioner through the facilities of *Dataworld. Both utilize the geographic co-ordinates of station KXXKX. The first search utilizes the DataWorld data base and the second utilizes the FCC data base.

This instant proposal is to amend the FM table of Allotments as follows:

<u>Community</u>	<u>Present</u>	<u>Proposed</u>
Knob Noster, MO	289C3	289C2

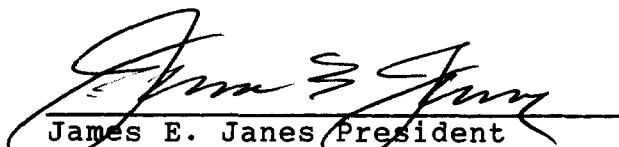

*Dataworld, of Bethesda, Maryland is commonly considered to be a highly reliable source of data for broadcasters and is utilized by many Consulting Engineering firms. Dataworld's data is derived from direct research at the F.C.C.

CONCLUSION

Petitioner re-states, that should it be determined that the public interest would be served by adopting the proposal in this petition, Petitioner will promptly submit to the Commission the technical information required of an applicant for channel 289C2. In addition, prior to the commencement of operation on channel 289C2, Petitioner will submit the data required of an applicant for modification of its present license.

FOR THESE REASONS, it is respectfully requested that the Commission issue an Order pursuant to this petition, specifying that the outstanding license of station KXXK be modified for operation on channel 289C2 in substitution for channel 288C3.

Respectfully submitted:

James E. Janes President
Bick Broadcasting Co. (Petitioner)
